1. Claims 1-11 and 14-19 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It is unclear from the specification what "a cavity" is. It appears that the specification does not disclose what "a cavity" would include and how this cavity is formed. It is unclear whether this cavity is formed by the space in which the installed anvils enclose.

2. Claims 1,2,5,9,10,11 contains the trademark/trade name Torlon and Vespel. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe Torlon and Vespel and, accordingly, the identification/description is indefinite.
